

## HOW TO MAKE CLEVER DRIPPER COFFEE

### INGREDIENTS

18g of filter roast coffee

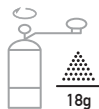

300g of water

- 1 fold and insert bleached paper filter into Clever

- 2 use hot water to thoroughly rinse paper filter to get rid of taste

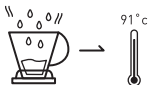

- 3 grind 18g of coffee at medium coarseness, just finer than what you would use for french press

- 4 add coffee then add 300g of water & start timer, make sure to wet all the grounds

- 5 at 3:30, place Clever on carafe and allow the coffee to drop down

- 6 after all is dispensed, dispose of filter and rinse Clever, we prefer to use freshly heated water to 91c
